WE

Hindama is an animation studio that has taken shape over time. Hindama is a heterodox group of professionals from the creative field. Frame by frame, we strive to communicate something through our expressive, handcrafted pieces and to preserve an almost lost essence of animation.

Or perhaps, we simply want to tell stories.

ANIMATION STUDIO

OUR SERVICES

◆ ANIMATION

The greatest advantage that visual language has over text is its immediacy and communicative impact. Images have the ability to convey content directly: while text needs to be decoded, the brain interprets iconography instantly. This is also the main reason why so many manuals include illustrations.

Despite our preference for frame-by-frame animation, we work with a wide range of techniques and visual styles (cut-out, rotoscoping, motion graphics, cartoon, or realistic style). Our goal is to choose the right technique to bring each idea to life.

◆ ILLUSTRATION

At Hindama, we also have something essential that sets us apart: a unique graphic style that creates a personalized product with a clear visual identity. Hindama's style is defined by its technical and conceptual versatility.

Our extensive knowledge of illustration and animation history allows us to develop creative and diverse solutions for every challenge, always aligned with the client's vision and goals.

Anything the client needs, and any style, is possible at HINDAMA.

◆ MOTION GRAPHICS

We also work with graphic elements such as logos, typography, and titles.

We are passionate about traditional animation, but we do not ignore modern computer animation methods, which can significantly streamline the production process.

These elements add dynamism and make video content far more engaging and visually appealing.

◆ ADVERTISING

Our product can be especially valuable in the advertising sector: animation is a splash of color that unmistakably stands out in today's market. Unlike the impersonal coldness of generic footage, drawings endure. Animation enhances its message through expressive and technical resources.

"Imagination is limitless," as we like to say.

◆ TEASER

At Hindama, we take care of the entire creative process, from the initial concept and script, the artistic development, the storyboard and animation, to the final post-production and sound, in order to create a unique product.

The use of teasers is ideal for:

- Social media (Reels)
- YouTube channels
- Company image and corporate identity
- Films and music videos

◆ GAME ART & SOUND

We specialize in 2D art and animation, developing characters, environments, user interfaces, and visual effects that enhance the identity and gameplay of each project.

Additionally, we create original music and sound effects that accompany the action, giving the game emotion and rhythm. All of our visual and audio work is designed to integrate seamlessly with the gameplay.
